GPS Tracking Module

Capabilities

- » Solution provides improved security and location awareness for trailers and loads
- » GPS tracking, two-way Iridium satellite communications and battery backup operation
- » Improved asset utilization and operational efficiency
- » In-transit visibility and route history provides improved customer service
- » Increased recovery rate of lost or stolen goods and assets
- » Suitable for hostile environments (NEMA-4 enclosure)
- » Low battery warning and safety mode for preserving battery for extended disconnection from power source

Technical Specifications

Power Source:	11 Volts (min) - 30 Volts (max)
Transmit Freq:	1610-1626 MHz
Receive Freq:	1610-1626 MHz
Power Consumption:	Transmit at 12V = 650mA (typical) Standby at 12V = 120mA (typical) Sleep at 12V < 1mA
Size:	12.4 x 6.3 x 2.7 inches (31.5 x 16 x 6.9 cm)
Weight:	120oz (3401g)
Transmit Power:	2 watts
Operating Temperature:	-31° to +158°F -35° to +70°C
Transportation	Designed to meet or exceed all
Vibration Requirements:	SAE standards

Fleet Management Solutions provides complete mobile asset tracking and management solutions, from its vehicle tracking modules to its web-based mapping software.

FMS Technical Support & Professional Services

Client satisfaction, results and continuous return on investment begin with quality training and installation support.

FMS works closely with every client to ensure system installation and deployment is complete and on schedule.

With an online knowledge base and truly helpful documentation you may never encounter a problem you can't solve yourself. But if you do, FMS is just a phone call away.

Real-Time Data From Anywhere, Anytime

FMS tracking modules maintain continuous GPS location, direction and speed information and combine that with vehicle performance data for complete mobile resource management. Fleet information is delivered from the vehicle via satellite, ensuring data delivery without need for cell towers and regardless of land geography. Data is received, stored and analyzed at the FMS network operations center and is accessed from the FMS hosted application, Fleet Central.

Why Choose FMS?

Fleet Management Solutions, Inc. provides complete mobile asset tracking and management solutions to the Energy, Military, Government, Construction, Mining and Logistics industries. Solutions include vehicle tracking units, satellite airtime for data transmission, a web-hosted application for complete fleet management and professional services for successful deployment, on-going support, and quick return on investment.

- » Fleet Efficiency
- » Crew Monitoring

- » Driver Safety
- » Asset Security
